BETTER POOLS, LASTING MEMORIES

In-Ground Pool Solutions from an Industry Leader
in Metal Manufacturing

INNOVATORS & ACHIEVERS

You Dream It, We'll Engineer It – On Time & On Budget

PARTNERS IN GROWTH

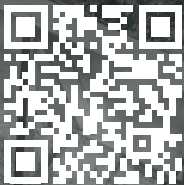

As a service-oriented manufacturer, Malach's focus is on partners, builders, and distributors. We're a team that's committed to designing and producing the highest-quality metal products and parts, and we continue to build a reputation of excellence through the skills of our workers, an upbeat corporate culture, and our relationships with customers old and new.

Ours is a "CAN DO" attitude that values collaboration, integrity, and pride in our craftsmanship.

SHOWING OUR "METAL"

Using state-of-the-art metal fabrication technologies, Malach provides start-to-finish manufacturing at our Winnipeg, Manitoba and Valley City, North Dakota facilities. In addition to our pool panels, our products and capabilities include:

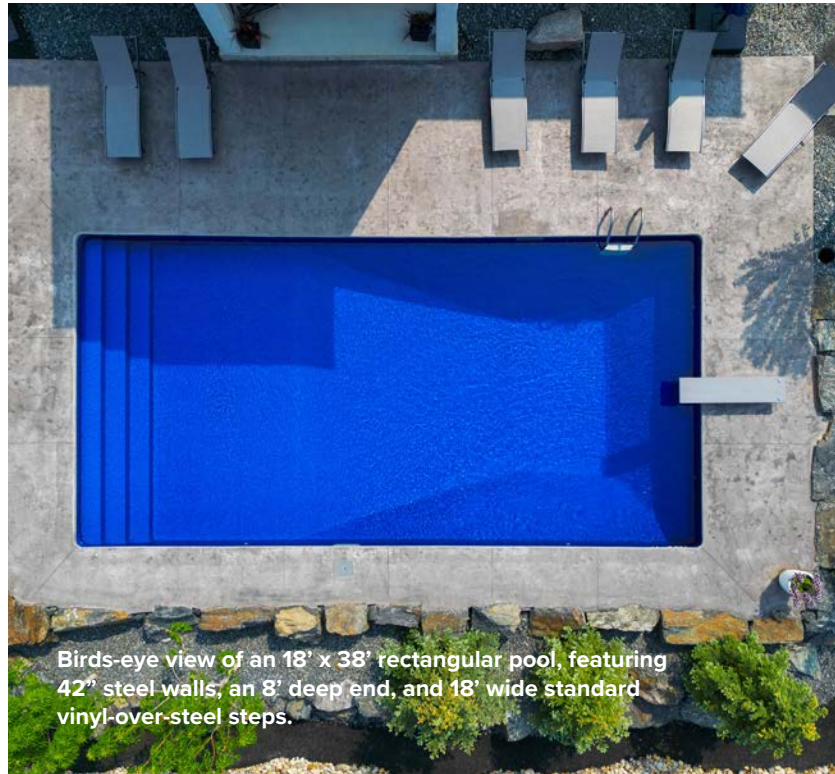

- Parts production (1,500,000+)
- Punching & Shearing
- Forming & Bending
- Tool & Die Builds
- Powder Coatings & Finishing
- Modelling, Engineering & Programming

For further information about our products and capabilities, as well as delivery services, call **204-895-8002**. You can also fill out a Request Form by visiting malachmetal.com/contact-us.

Malach's pool panel manufacturing line, with stud welding, clinching, riveting, and fastening capabilities. Pictured – pool panel 8' x 42".

WE'RE CRAFTING MEMORIES

Malach Metal & Machining is excited to welcome new building and distribution partners from coast to coast to coast! Our in-ground galvanized steel pool kits are manufactured to spec for every installer and retailer, ensuring optimal fit and customer satisfaction every time. We know that both user experience and property value are important to customers, which is why our durable pools ensure long-lasting memories and yard appeal.

OUR POOL PANELS

We offer a wide range of pool panels, from straight to curved and with any radius. And we only use 14-gauge G235 galvanized steel – the best in the industry. Staircases, ledges, and benches can be fabricated to spec or purchased from our standard offering. We also welcome custom inquiries for unique, one-of-a-kind builds.

VALUE

Our superior product is priced competitively against our competitors.

SUPERIOR POOL PRODUCTS & EXPERIENCES

In-Ground Galvanized Steel Pool Kits, Made by Us to Your Specifications

- Panels made using industry-leading 14-gauge G235 galvanized steel
- Straight panels or curved to any radius
- Staircases made to spec using 14-gauge G235 galvanized steel
- Customized pool kits for unique customer bases
- Quicker lead time than the competition (1-2 weeks)
- Delivery to partners throughout North America, with central facilities providing competitive freight lanes to the consumer.

Quality Assurance

Since 2002 we've worked in compliance with ISO 9001 requirements, ensuring careful, thorough planning and execution of all production stages.

Leaders in Innovation

Malach Metal & Machining employs the **Lean Manufacturing** style of management – a system that minimizes waste and adds value for customers through increased efficiency in production. We make all our products under one roof, and the sizes of our facilities mean we can manufacture products and parts on a massive scale.

HAVE AN IDEA? WE CAN BUILD THAT!

Want to go bigger? Smaller? More personalized? Malach loves the challenge of customized pool builds and other metal products and parts. Having an in-house engineering team and state-of-the-art machinery means we manufacture any design, turning ideas into reality. And our partners can always count on the integrity of our steel, the precision of our machining, and the offering of an honest price.

UNCOMPROMISING STANDARDS

We're proud to be a preferred manufacturer to builders, installers, and retailers throughout North America. Being naturally collaborative within our facilities, we're always pleased to operate in partnership with our customers, working with them every step of the way to ensure the products we deliver exceed their expectations. Our quick turnaround time also allows our partners to plan for, and after, delivery, helping them grow more quickly and efficiently.

DELIVERY

Our lead times are 1-2 weeks quicker than our competitors! In an industry with a short season, we know our partners are relying on us to be on time – every time.

Aerial view of Malach Metal & Machining, just outside Winnipeg, Manitoba. In addition to the 75,000 square foot manufacturing floor, spaces for engineers, sales, operations, accounting, and management are included in this collaborative facility.

A FUTURE OF GROWTH

As we look ahead, we're excited about what the future has in store for Malach Metal & Machining. Evolving technologies will allow us to make our products even better and more quickly, and we're already set up for a marketplace that will increasingly demand agility.

But some things won't change. Namely, our promise to our partners that we'll continue to design and produce the high-quality metal products and parts they've come to expect. It's a commitment we're proud to grow with.

We want to become the number-one choice for sheet metal fabrication services across North America.

LET'S CONNECT

We're looking to add builders and retailers to our existing base of customers. To get in touch regarding our pool or other manufactured steel products, don't hesitate to call **204-895-8002**.
